LCIF Approves Disaster Funding

As Lions, we can count on Lions Clubs International Foundation (LCIF) to be where help is needed in times of crisis. In the wake of the magnitude 6.9 earthquake that hit the island of Lombok, Indonesia, LCIF has approved \$50,000 in designated disaster funding to assist local Lions in providing much needed early response relief. As aftershocks continue, Lions in Indonesia are already providing much-needed supplies.

The generous support of Lions allows LCIF to provide disaster relief funding at a moment's notice. The Fairmont Lions Club provides financial support to LCIF, so that club members are a part of this relief.

LCIF has earned its seventh consecutive 4-star rating from Charity Navigator. Over the 50 years of the Foundations existence, West Virginia Lions have received more funds (including disaster relief) from LCIF than WV Lion's total donations to LCIF. Our support is critical to continue the great services that LCIF provides both locally and globally.

Members Witness Installation of LCI President

Aletta and Bob Moffett were in attendance at the 101st Lions Clubs International Convention this summer in Las Vegas, NV. Among the events and activities, they were there to see the installation of Gudrun Yngvadottir as president of the Association for the 2018-2019 year. She is the first female to serve as president of Lions Clubs International in its history. Coincidentally, Aletta was the first female to serve as the president of the Fairmont Lions Club (2009-2010).

President Gudrun Yngvadottir stands with LCI's past international presidents.

Nine Provided Eye Exams and Glasses
